

OVERVIEW OF BIOLOGICAL EVIDENCE FOR CREATION

OUTLINE — SESSION 17

1. Description of Evolution and Creation
2. Consider origin of 1st life in supposed “E” chain
 - A. From chemicals to amino acids to proteins to cells by chance ?
 - B. With concurrent formation of Nucleus and DNA by chance ?
3. Show probability of simplest protein by chance is less than Zero
 - A. Thus chance assembly of entire cell is impossible !
 - B. Testimony of noted scientists on “Life by Chance”
4. Bacteria Flagellum add unexplained complexity to cell
 - A. Design exceeds human engineering
 - B. Introduce concept of Irreducible Complexity (Behe)
5. Cell nucleus contains DNA – most complex part
 - (1) Contains genetic code w/ Intelligence (Can’t evolve)
 - (2) Werner Gitt says: “Scientifically impossible by chance.”
6. Statements by Bill Gates, Sir Francis Crick, and noted Micro-Biologist
7. Evolutionary concept of Speciation over time (with increase in complexity)
 - A. Alleged “E” path is Crab to Fish (Invertebrate to Vertebrate)
 - B. Another alleged “E” path is Frog to Snake (Amphibian to Reptile)
 - C. Problem is: No transitional forms ever found between distinct species
8. Comparison of “E” model w/ Geologic Column shows disconnects
 - A. Better correlation to Genesis Flood (Rocks and fossils)
9. Many “extinct” animals/plants have turned up alive
 - A. Called “Living Fossils”
 - B. Like “150 M yr old” shrimp — Why not affected by Evolution ?
 - C. Statement by S.J. Gould on Fixity of Species
10. Law of Biogenesis demands fixity of species (Biblical “Kind”)
11. Early Mammals to Man
 - A. Horse Series in Biology textbooks has no basis
 - B. Ape to Man “Evolution” is example of Much Counterfeit Science in text books
 - (1) Recorded history shows: Man always man
12. Did Dinosaurs co-exist with Man
 - A. Evidence says Dinos and Man existed together up until few hundred yrs ago
 - B. Recent breakthrough in Dino Dating shocks academia
13. Ten common “Icons of Evolution” used in Biology texts now proven invalid
14. Design in Nature requires a Designer – shows God’s hand:
 - A. Migration of birds and fish; Insect design features
 - B. Photosynthesis in plants; Human body
